

Gamification X Neuroscience

FOR K-12 DISTRICT LEADERS

End of Year Student and System Health

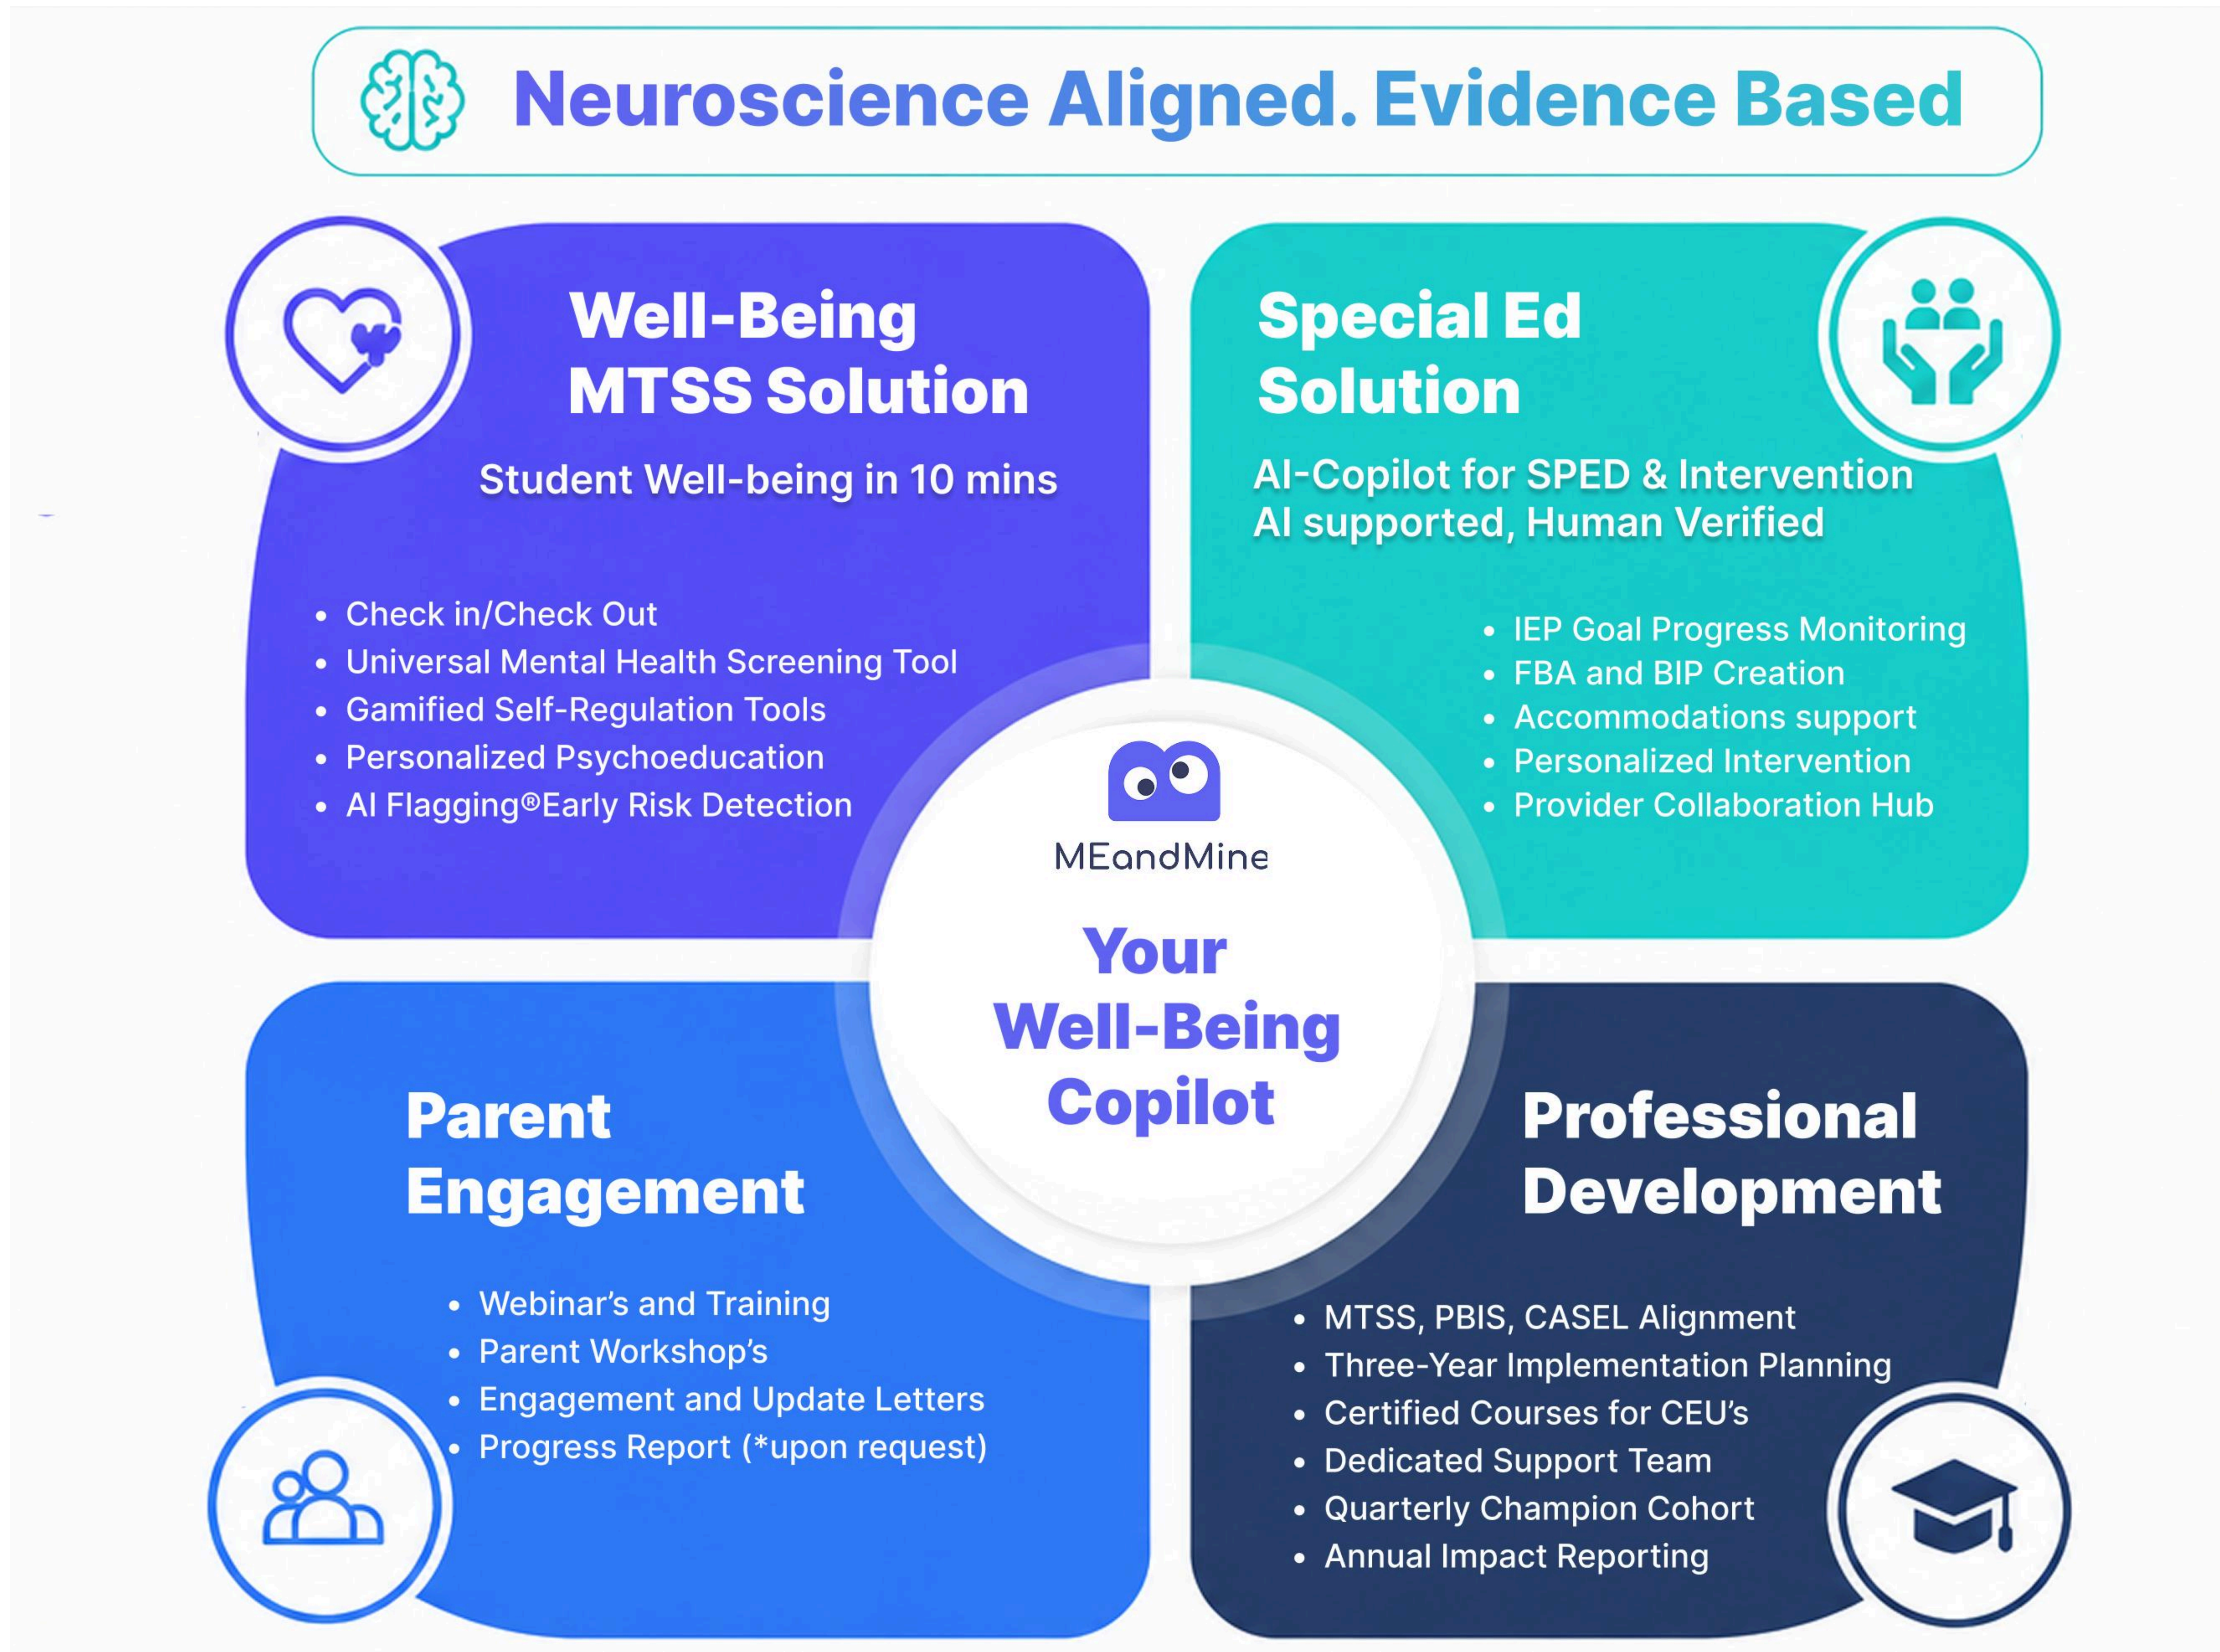

Attendance. Behavior. Capacity

01 · SYSTEM

The All-In-One Whole Child Ecosystem

Build Capacity. Improve Attendance. Reduce Behavioral Incidents.

02 · EVIDENCE-BASED OUTCOMES

The **Stanford Medicine** research with Cambrian School District showed strong outcomes through daily student voice and proactive support.

What happens when every student has a voice in their own care.

83% IMPROVED SELF-REGULATION

Reduced self-reported emotional outbursts.

98% STUDENT ENGAGEMENT

Students when accessing the app.

52% FEWER BEHAVIOR INCIDENTS

Reduced behavioral incidents over 3 months.

91% EARLY DETECTION ACCURACY

Concordance between AI flagging and counselor validation.

30 hrs SAVED PER STUDENT

Saved per student annually on IEP and BIP planning & tracking.

32% LESS OVERLOAD

Less time spent on administrative workload.

EMOTION LAB™ MTSS Solution

Student Well-Being In 10 Minutes

A gamified platform that builds self-regulation and identifies early mental & behavioral support needs.

Well-Being in 10 Minutes

AI-Powered MTSS Support

 Daily Check-in
 Self-Relation Games
 Personalized Psychoeducation

 160 In-Game Behaviors
 AI-Flagging
 Early Intervention

AI powered multi-tiered system of support

Student

Check-in Check-Out

Check in based on neuro-regulation states unlocking 200+ personalized, interactive learning games. Check out measures student neuro-regulation state post engagement.

Student

Self-Regulation Skills

Game-based activities teach calming and regulation strategies using psycho-education to help students stay focused.

Student

Gamified Assessment

More reflective than surveys, shifting from one-time teacher check-ins to continuous, real-time tracking elevating student voice.

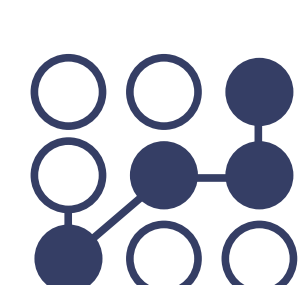

Educator & Counselor

Real-Time Insights

10 minutes a day creates data story, helping our AI tool flag risks and highlight areas for growth.

Educator & Counselor

Behavior Support

Personalized PBIS-aligned incentives driving systemic improvements in engagement, attendance and positive behavior.

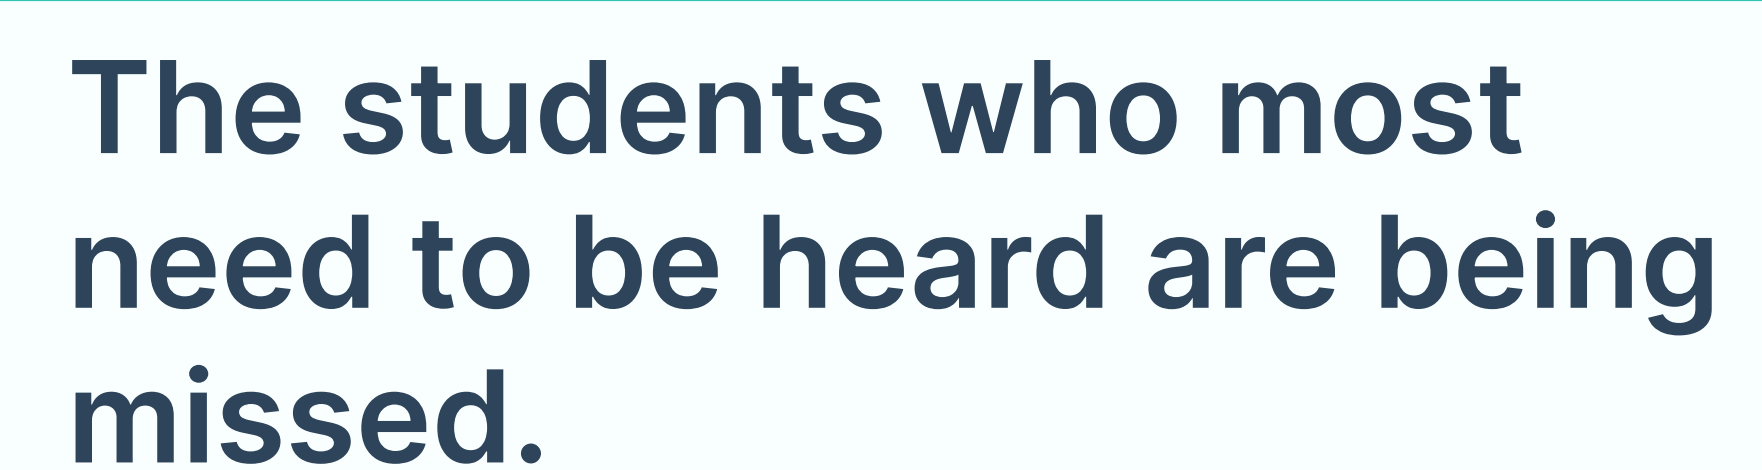

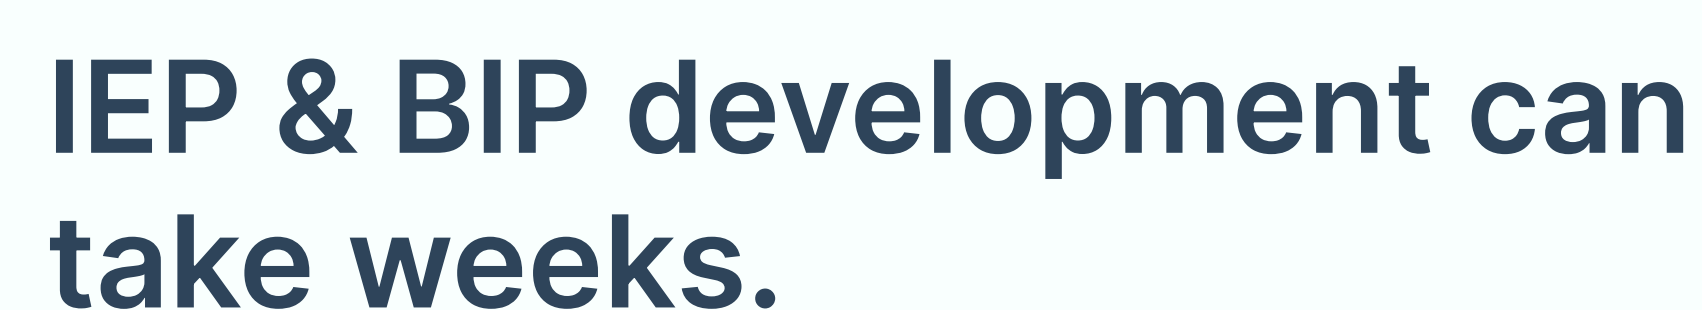

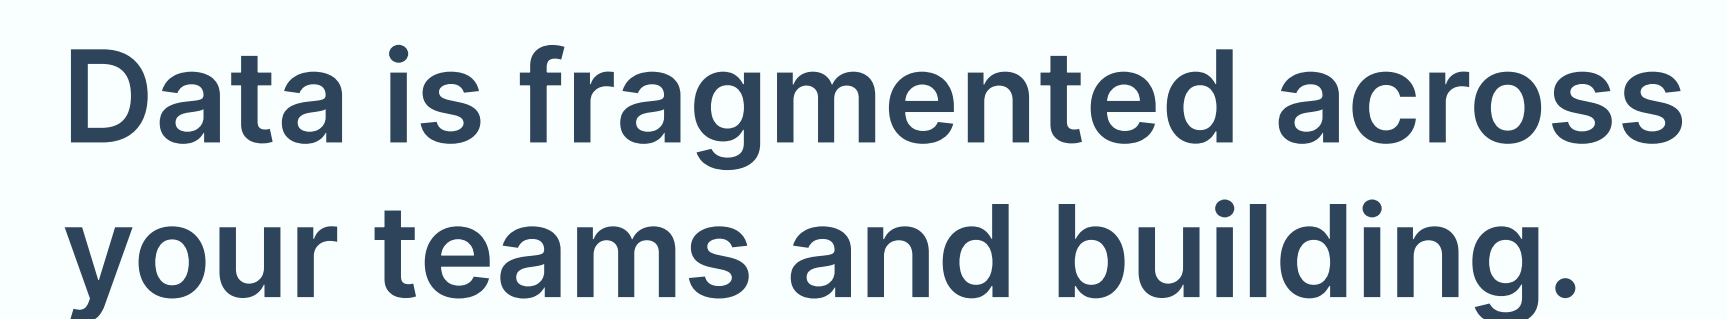

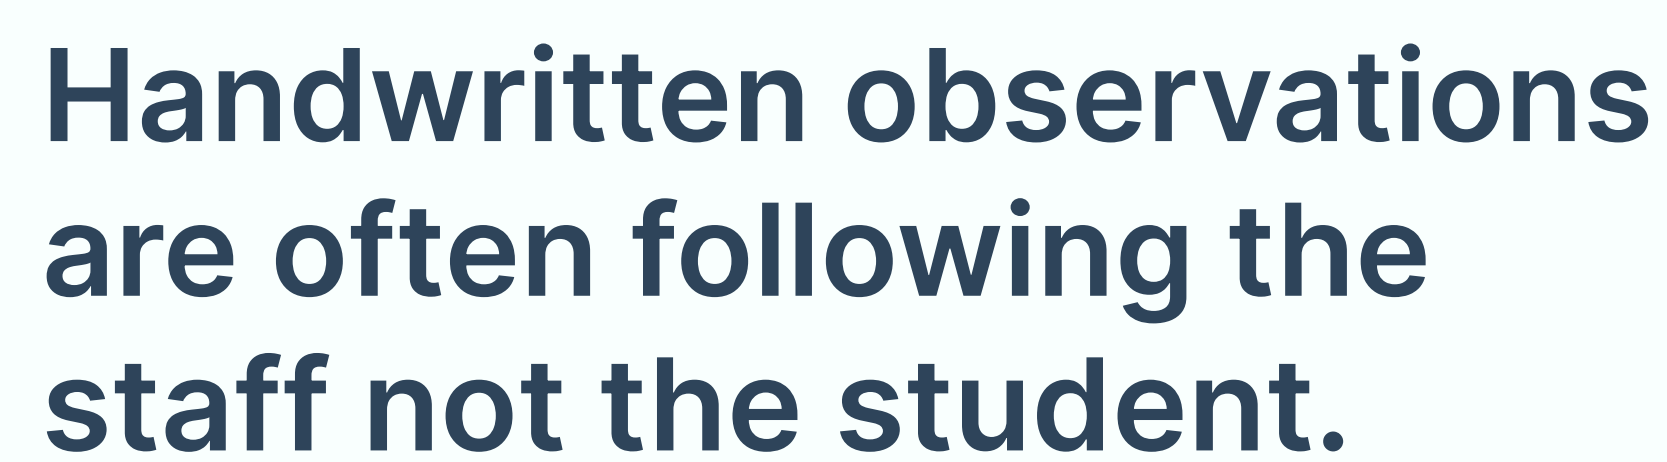

Educator & Counselor

AI-Flagging (MTSS)

160+ in-game behaviors fuel our AI to alert care teams, and deliver high-fidelity, actionable insights.

Where your team are spending hours they do not have.

One photo from your school device. Evolve converts handwritten observations into structured data ready for IEP goals, BIPs, and progress monitoring. That is 728 hours of transcription and data collection saved every year.

Six to twelve hours of paperwork becomes six to twelve minutes of intentional review. Evolve unifies data across settings, surfaces patterns, and drafts compliance-ready IEP goals and BIPs. Clinical judgment leads in one connected workflow.

Referral systems often only see the loudest signals. The students struggling quietly never make it into the data. Meet Morphi, the digital companion that gives every student a daily way to be heard. Equity by elevating student voice. Patterns in data create support before escalation occurs.

05. PROFESSIONAL DEVELOPMENT

Educator Capacity Building

A three-year partnership follows a proven three-year arc to strengthen student well-being, behavioral support, and MTSS alignment into everyday school routines.

01

FALL

Launch Session for All Teachers

Our Implementation Manager supports the launch on-site and remains the dedicated partner throughout the year. Stanford Medicine research showed 95%+ teacher success with a supported implementation model. We are your partners, not just vendor. Invested in our school and district success.

02

ALL YEAR

Quarterly Champion PLC

We work with your team to identify 2–3 Champions per building who meet quarterly in a PLC-style cohort with district leaders. Champions turn data into classroom action, strengthen collaboration, and help sustain implementation across schools.

03

WINTER

The MTSS Anchor Session

By mid-year, districts have a full semester of Well-being Index data.

MEandMine brings teachers, Champions, MTSS coordinators, counselors, and SPED leads together to align data with Tier 1–3 supports and refine intervention planning before spring assessments.

04

SUMMER

Celebration and Renewal

In-person session recognizing Champions and we present your district Impact Report and Year Two Roadmap: Well-being Index growth, behavior incident trends, teacher adherence, and administrative workload reduction.

06. PARENT ENGAGEMENT

Where Parents Become Teammates

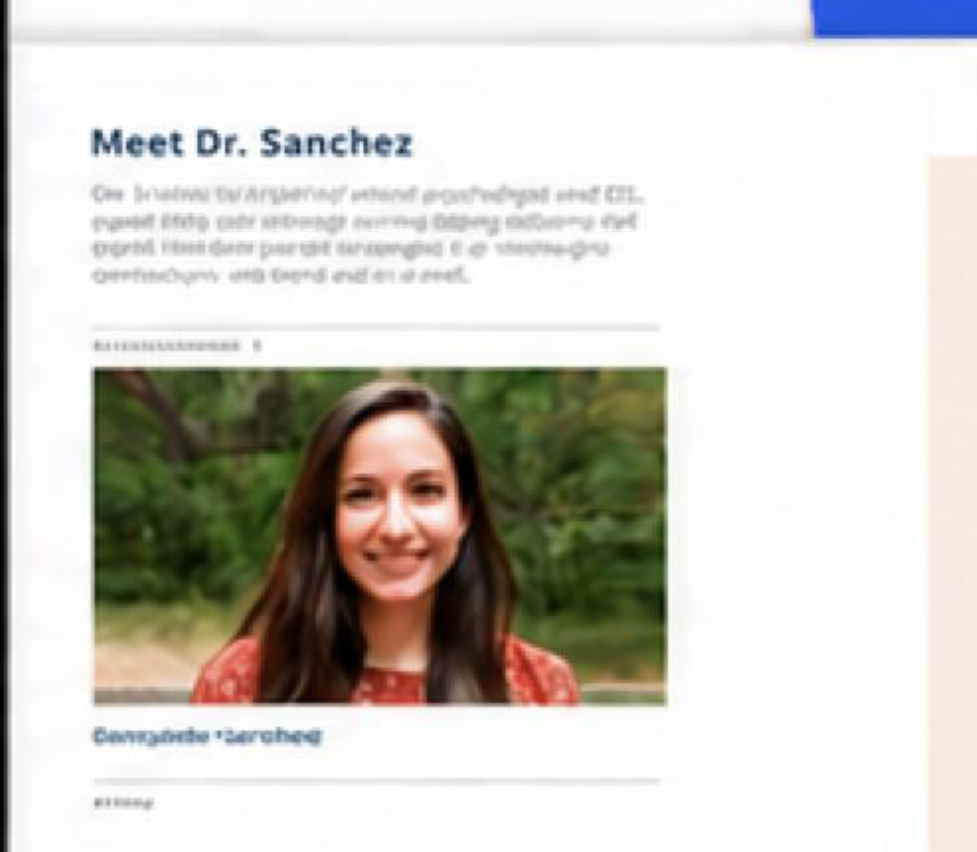

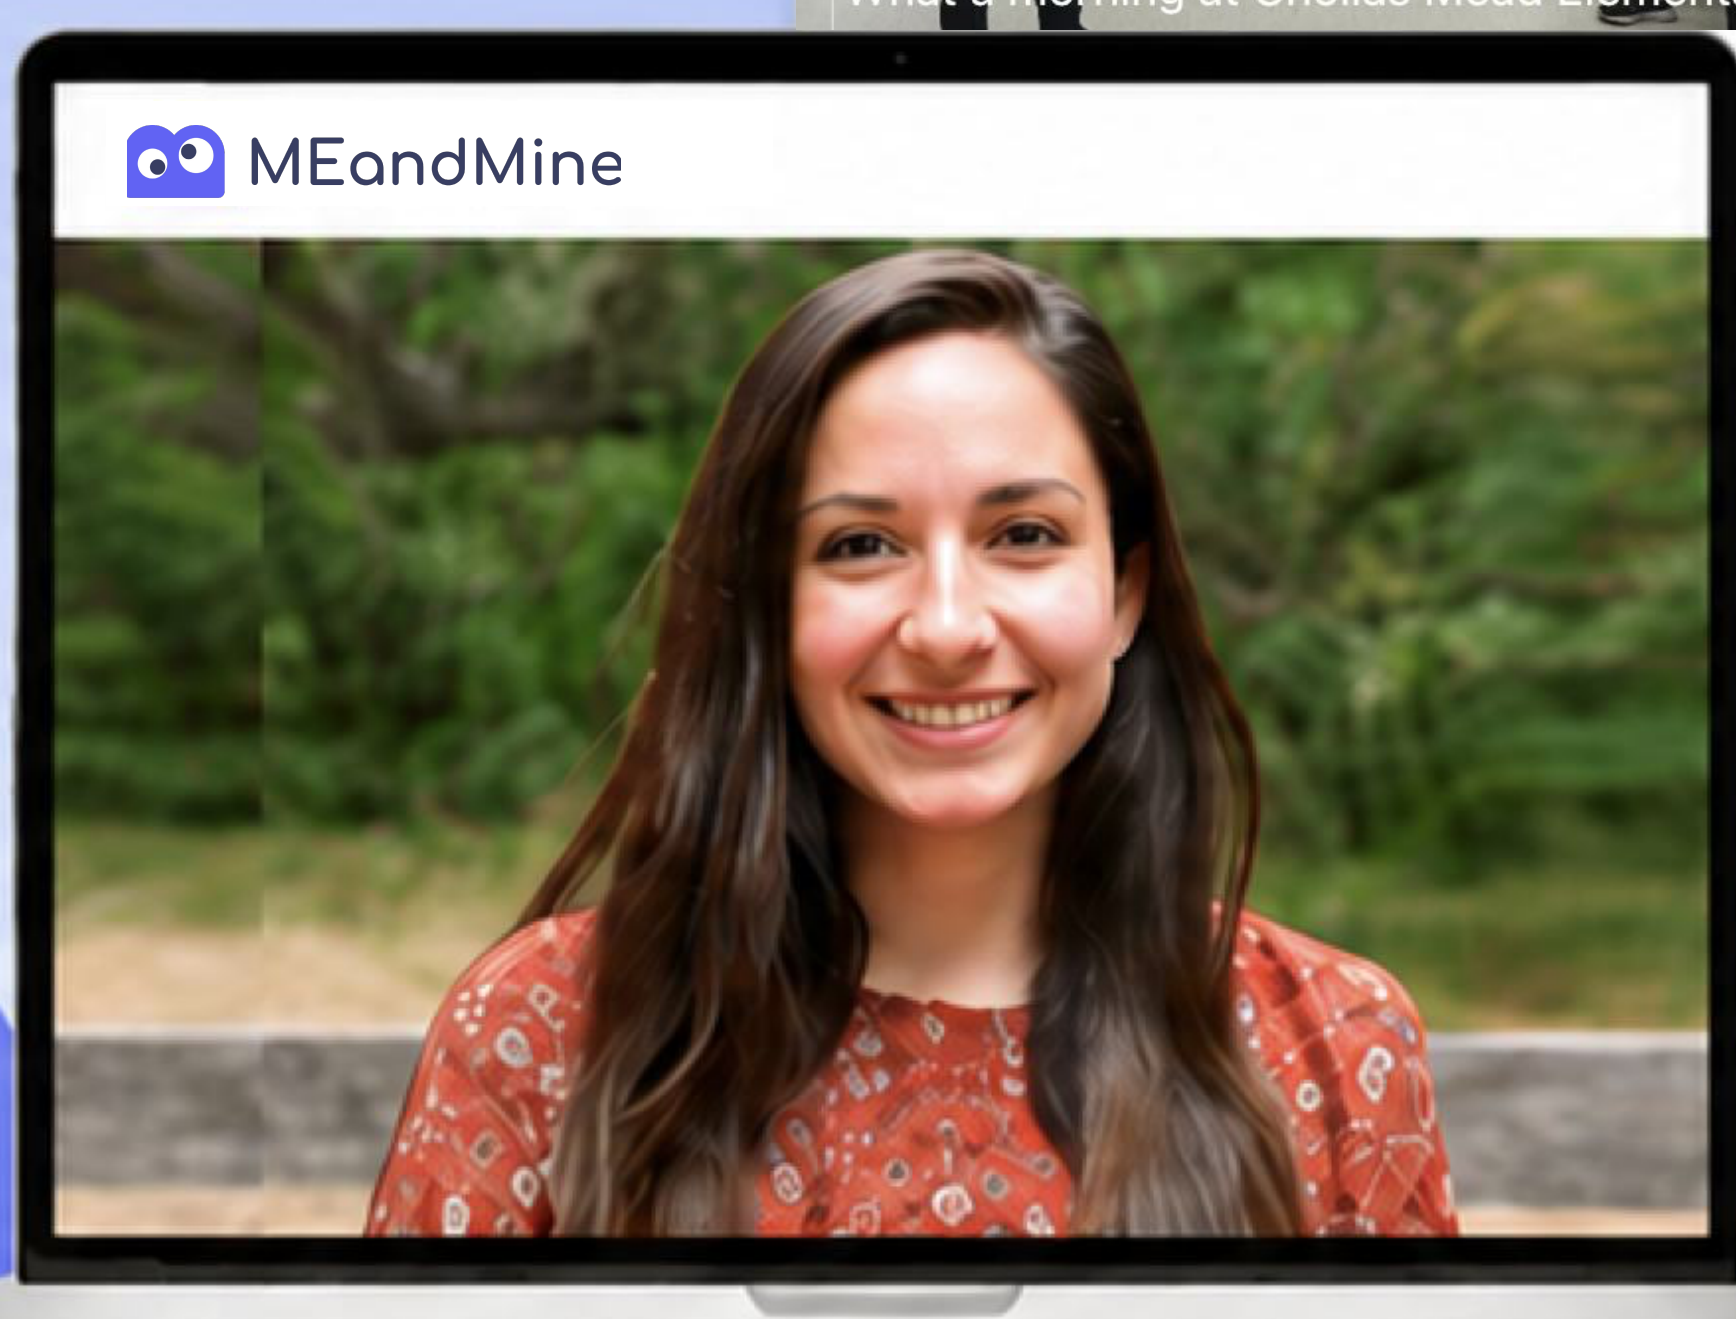

The MEandMine Family Program strengthens school-home partnership to support the whole child, every child.

Parent Workshops & Expert Webinars

Dr. Sanchez's Parent Workshop

Help families and schools work together in building confident, emotionally strong children—through shared language and aligned initiatives.

07. TESTIMONIAL

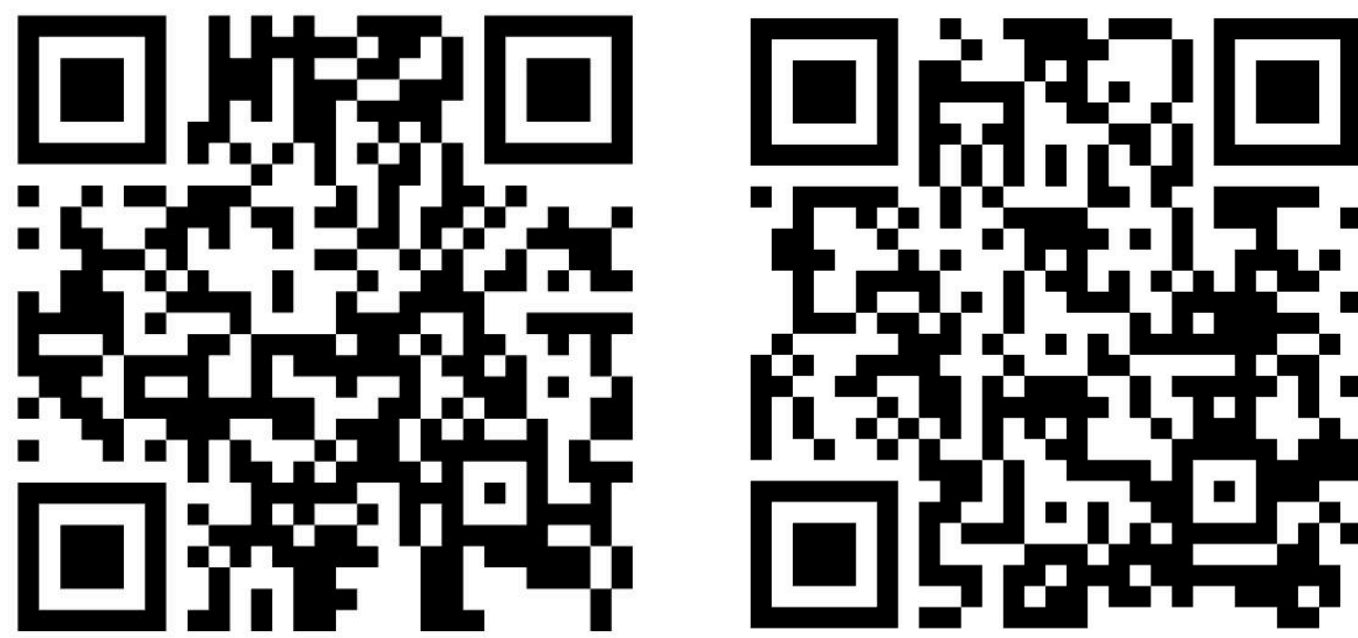

Trusted by Schools and Districts

MEandMine is one of the most sophisticated and thoughtfully designed programs I've seen. It not only enhances student well-being but also provides meaningful data for our teachers and administrators.

Patrick Gittisriboongul, Ed.D

Superintendent
Lynwood Unified School District

As a longtime MTSS champion, I've seen many tools—but MEandMine truly stands out. It bridges data with meaningful action, bringing the clarity and efficiency we need to strengthen school safety and well-being.

Tara O'Brien

Principal
PS 207 Godwin Terrace School

I've seen many tools, but MEandMine truly stands out. It automates all paperwork, unifies all documents into IEP goals, BIPs, and progress tracking, bringing the clarity and efficiency we need to support our students.

Maggie Spehar

Director of Student Services
Cambrian School District

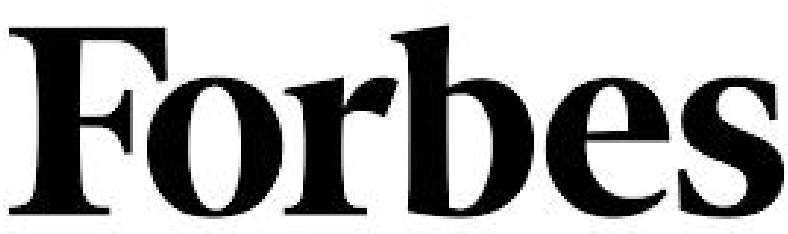

Michael Pontebbi

Principal
PS/MS 20 George J. Werdann, III

It's a game-changer! My students love using MEandMine in the classroom. The data help me shape strategies, track student growth, and check in with students that may need extra emotional support.

Awards . Press. Partners

What we are doing about the funding wall.

June 30

FISCAL YEAR-END FOR MOST DISTRICTS

Last opportunity to use current-year funding before it's gone!

- ✓ **Title IV-A**
For SEL, mental health, and school climate work.
- ✓ **IDEA Part B Flex (CEIS)**
For general education academic and behavioral support, up to 15%. Special education funding directly aligned to Evolve's FBA, BIP, and progress monitoring workflows.
- ✓ **Title I, II**
Carryover up to 15% without a waiver.
- ✓ **BSCA School-Based Mental Health Grants** Bipartisan Safer Communities Act funding for school mental health services, screening, and workforce.

The Deadline is Close!

Schedule Your District Planning Call Today.

Three ways to partner this month.

01

Discovery Call

A 15-minute conversation to explore Evolve and how we can support your team's most pressing workflows and your existing MTSS structure.

02

Braid Funding

Our team helps you braid funding, surface grant opportunities, and identify the federal streams that fit your partnership goals.

03

Partner by June 30 for Promotional Savings

Lock in the savings for next year and have student mental health support at scale ready to go on day one.

FOR DISTRICT LEADERS

This isn't another tool. It's system alignment, proactive behavior support, and capacity relief for your teams.
